Model: **C458**

Class: Partition - Sneeze Guard - (10° tilt with mini 6" top shelf)

Model C458 is part of the Crystalline Series featuring the elegant all glass look. The C458 represents a family of free-standing partition sneeze guards using CRG construction. These partitions have a 10° tilt back front shield with a mini 6" top shelf and two 1/2" crystal clear glass support posts. The only hardware on these units are the flanged boots for counter attachment. There are four standard heights, seven standard widths, and comes in 1/4", 3/8" or 1/2" safety tempered glass. The C458 is a quick and easy way to meet your sneeze guard needs. NSF Cafeteria Food Shield regulation (5.35.5.1) states the sum of the vertical and horizontal measurements need to be $\geq 24"$. The C458 mini top shelf contributes to the overall height requirement. Custom sizes available. Always review your sneeze guard plans with your health department.
