

Model C100 & C100A are part of the Crystalline Series which featuring the all glass look is a favorite for Carving and Prep stations. The C100 is for straight counters and C100A is used on curved counters. These partitions is characterized by the straight up front shield. These partitions allow a maximum of 42" between supports. When multiple units are connected they have a continuous smooth front shield. The C100 & C100A are designed to be able to connect to most of the other Crystalline sneeze guards.
