

Model: C102 & C102A

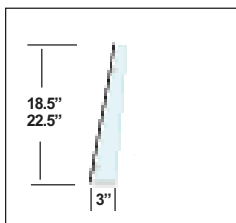

Class: Partition

Model C102 and C102A are part of the Crystalline Series which featuring the all glass look a favorite for the Carving or Prep stations. This partition is characterized by the 10 degree slant on the front shield. The C102 is for straight counters and the C102A is used on curved counters. These partitions allow a maximum of 42" between supports. When multiple units are connected they have a continuous smooth front shield. This partition system can connect to the 152 full-serve sneeze guard.
